

New information about COVID 19 and rules about

going to school.

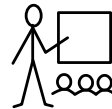

The government has told teachers and

students/pupils that they should continue to

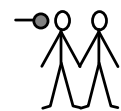

go to school during this current Lockdown period.

It is very important that teaching and learning must

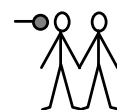

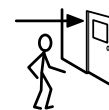

continue and schools will have all the safety

measures/precautions already in place to keep their

students/pupils and teaching staff safe.

So students/pupils must continue to attend their

school during this current lockdown period..
